GCSE Mathematics

Dear Parent/Carer,

Year 10 are currently working towards their GCSE Mathematics. The course is demanding, in terms of content and skills. Given the great demands of the Mathematics GCSE, and in order to ensure pupils achieve the very best of their ability, we will be rotating your son/daughter's teacher half termly. This will allow us to address the areas of development discovered from formal assessments and consolidate all previously covered topics in preparation for a confident start to year 11.

The lessons will continue to focus on personalised learning opportunities that are well matched to tiers of entry and current working grades. Pupils will continue to be assessed in class to check their progress and to allow teachers to plan tailored lessons to fill any gaps of knowledge.

If you have any questions about the course or the progress of your son/daughter, please do not hesitate to contact me.

Yours faithfully,

Mrs S Baxter
Director of Mathematics
